

FABRICS & CONSTRUCTION

There is enough to think about and plan for when travelling. Will you make that flight? Where will you stay? Did you leave the light on? So why not remove concerns about your gear letting you down? With careful material selection, and 35 years experience in design and testing, you can always rely on your Macpac pack.

**AZTEC®**

In a quest for a superior weatherproof and hard-wearing pack fabric, Macpac developed AzTec®. It's not only tough when it's new; AzTec® is known to resist weather and wear and tear over many years of active use (it wears in, not out). AzTec® is formed by a unique blend of hard wearing, long staple cottons and abrasion and rot resistant polyester fibres. The fabric is saturated in a unique blend of resins and waxes to create long term weatherproofness.

**NYLON**

The range of PU coated Nylon fabrics used in Macpac's travel range offers the best balance between tear strength, abrasion resistance, water resistance and weight. The use of High Tenacity Nylon 6 fabric in key areas provides the best protection from wear and tear.

**ZIPS**

For all of our main zips Macpac use lockable #8 or #10 YKK zips for peace of mind and best performance over many years.

**CONSTRUCTION**

All Macpac products are designed to go the distance. This means seams are double stitched, bound on the inside to provide durability and all webbing straps are back tacked multiple times to endure rough handling. They are a match for even the most enthusiastic baggage handler.

HARNESSES

**AIRFLO™**

Comfortable lightweight load carrying system with enhanced ventilation. Fully adjustable shoulder straps and fitted with a dynamic hip belt to increase load transfer and freedom of movement. This is the travel harness allowing you to carry the heaviest loads in comfort.

**AIRSUPPLY™**

Basic, but fully featured harness for those looking for a comfortable and affordable option. Hip belt for load transfer and stabiliser straps to fine tune fit. Comfortably carries medium loads.

**T-BONE™**

Comfortable day pack harness with mesh pads for stability and ventilation. Easy to stow away when not in use.

## HYBRID PACKS

Macpac hybrid or 'adventure travel' packs will prove worthy travel companions. They feature the traditional shape of a trekking pack for ideal load carrying. Ease of packing is optimised by having both top load and front load access. A 15lt daypack features a zippered external pocket, organiser in the main compartment, hydration sleeve and port with tuck away shoulder straps.

### GENESIS AZTEC 85 GENESIS AZTEC 70

Adventure begins with the Genesis. Made from extremely durable and weatherproof AzTec® fabric, ready to tackle anything you throw at it. Fully loaded with handy travel features to help you stay organised and keep your belongings secure.

- Top and front load, dual compartment
- Roll down storm throat with zippered closure
- Zip away harness cover
- Lockable zips
- Detachable 15lt daypack
- Shoulder strap

Available in:

### GENESIS 85 GENESIS 70

This version of the Genesis is made from weight saving, extremely durable, high tenacity nylon. It shares the same feature set as the Genesis AzTec®.

- Top and front load, dual compartment
- Roll down storm throat with zippered closure
- Zip away harness cover
- Lockable zips
- Detachable 15lt daypack

Available in:

## TRAVEL PACKS

Planning to go on your big OE soon? Having a reliable travel pack crammed with practical features is invaluable. Front load access and plenty of organising features gives you the ability to pack all you need (and take home even more!). The 15lt daypack features a zippered external pocket, organiser in the main compartment, hydration sleeve and port with tuck away shoulder straps.

### GEMINI AZTEC 75

The iconic Gemini provides the convenience of a suitcase, with the ability to choose carrying the pack over the shoulder or on your back. For the serious traveller who appreciates quality.

- Spacious front load access
- Guppy™ wide mouth bottom compartment
- Zip away harness cover
- Lockable zips
- Detachable 15lt daypack
- Shoulder strap

Available in:

### ORIENT EXPRESS 65

Successful travel is about functionality and simplicity. The Orient Express is offering just that: no-nonsense solutions for travellers who demand reliable equipment.

- Spacious front load access
- Single compartment with internal divider
- Zip away harness cover
- Lockable zips
- Detachable 15lt daypack
- Shoulder strap

Available in:

### PEGASUS 70

Quality and functionality is also available for those taking the minimalist approach. The Pegasus is accessible yet compact, providing you with all the features you need and nothing you don't.

- Spacious front load access, dual compartment
- Lightweight fixed harness
- Zip away harness cover
- Lockable zips
- Front pocket

Available in:

### LIMPET

The Limpet is a 15lt clip-on pack that fits on all Macpac travel packs over 60lt.

Available in:

## TRAVEL LUGGAGE

Planning to slot in some adventure during your business trip? Or perhaps you have to take care of business during your adventures? Keeping your belongings tidy, close at hand and easy to organise will be essential. Move quickly and safely with Macpac's Koru range; wheeled luggage for multi-day trips, versatile carry-on luggage to accommodate lap-top, paperwork, books and everything else you want to keep within reach.

### KORU 80 KORU 60

It's a breeze to take your luggage anywhere with the Koru. And when the all-terrain wheels can't cope, simply throw it on your back and walk on.

- 100mm all-terrain wheels
- Zip-away harness
- Spacious front load access
- Cover flap for security and weather protection
- Built in organiser and a number of mesh pockets
- Lockable zips

Available in:

### KORU 35 KORU 20

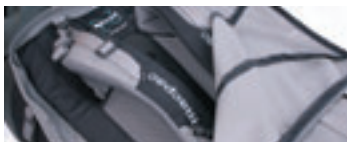

Carry it on your back, over your shoulder or by your side. You can trust the clever organisation to accommodate your laptop and keep your portable office sorted.

- Tuck-away harness
- Internal dividers for folders, paperwork and pens
- Deployable bottle holster

Available in:

Plenty of internal organisation

Zip away harness for protection while in transit

Lockable zips for increased security

Shoulder strap to provide carry options
